Excel Data Practice

Sheet Link : https://docs.google.com/spreadsheets/d/1WPd9G0O29qQMV43dqFxmUm-WTRP2g3gfIvdoHfpMUJA/edit?usp=sharing

1. Calculate total sales for the **North region**.
2. Sum total sales where **product is Laptop**.
3. Find total sales for **Retail customers only**.
4. Sum sales where **UnitsSold > 10**.
5. Total sales for **Electronics category in South region**.
6. Sum sales for **Rahul in West region**.
7. Total sales where **UnitPrice > 20000**.
8. Sum sales for **Phone and Tablet combined (use multiple SUMIF or SUMIFS)**.
9. Total sales for **dates after 1-Jan-2023**.
10. Sum sales where **CustomerType = Wholesale AND UnitsSold >= 5**.
11. Count how many transactions happened in **North region**.
12. Count entries where **product = Mouse**.
13. Count records where **UnitsSold > 15**.
14. Count how many **Retail customers purchased Laptop**.
15. Count records where **Region = East AND Category = Electronics**.
16. Count entries where **UnitPrice between 10,000 and 30,000**.
17. Count how many sales by **Priya**.
18. Count transactions where **TotalSales > 1,00,000**.
19. Count records where **Wholesale customers bought Accessories**.
20. Count sales where **UnitsSold < 5 AND Region = West**.
21. Find average sales for **North region**.
22. Average UnitPrice for **Laptop**.
23. Average UnitsSold for **Retail customers**.
24. Average sales where **UnitsSold > 10**.
25. Average sales for **Electronics category in East region**.
26. Average UnitPrice where **CustomerType = Wholesale**.
27. Average sales by **Neha**.
28. Average UnitsSold where **Region = South AND Product = Phone**.

29. Average sales where **TotalSales > 50,000**.

30. Average UnitPrice between **two date ranges**.

31. Total sales for **top-performing region (use helper + SUMIFS)**.

32. Count transactions where **sales > average sales**.

33. Average sales for **top 3 salespersons (use conditions)**.

34. Sum sales excluding **Accessories category**.

35. Count unique conditions like **Region = North & UnitsSold > 10**.

36. Average sales for **last 30 days**.

37. Sum sales where **Product starts with "M" (wildcard)**.

38. Count records where **Salesperson name contains "a"**.

39. Average sales where **UnitsSold between 5 and 15 AND Retail customers**.

40. Sum sales for **multiple regions (North & West) using array logic or multiple SUMIFS**.
